

Emerald ash borer mask

For best results:

Print mask on cardstock or other thick paper. Paint with a green face, green antenna, brown eyes, and black mouthparts. Sprinkle liberally with green or gold glitter while paint is still wet. Let dry, cut out eye and string holes. Add string!

Easiest method:

Print mask on cardstock or other thick paper. Color with markers or crayons, then cut out eye and string holes. Add string!

The **emerald ash borer** is a non-native tree pest that infests and kills ash trees. You can prevent the spread of this pest by buying local firewood, or certified heat-treated firewood. Learn more about emerald ash borer at stopthebeetle.info
